

Evi Antoniou

Human Capital Consulting
Occupational Psychologist

Evi is an Occupational Psychologist and a Senior Consultant at ICAP Human Capital Consulting, specializing in psychometric testing and strategic HR solutions. She provides consultancy to organizations on employee selection, leadership development, and workforce optimization. With significant experience in designing and implementing psychometric assessments, she helps organizations enhance their hiring decisions, improve employee engagement, and develop evidence-based and data-driven HR strategies tailored to their goals.

She holds a Psychology degree from Sunderland University, UK, and an MSc in Occupational and Organisational Psychology from Northumbria University, UK. Additionally, she is a certified Hogan practitioner and holds a qualification in Psychometric and Psychological Testing from the British Psychological Society.

Before joining ICAP, Evi worked as an Industrial and Organizational Psychologist at Bryq, where she strengthened her expertise in psychometric testing and organizational development..
